## Home Indemnity; what does it cover?

Home indemnity insurance protects against financial loss if a builder cannot complete residential building work or meet a valid claim for faulty or unsatisfactory building work because a relevant circumstance exists in relation to the builder.

A relevant circumstance can occur if:

- the builder is an individual and the builder dies, disappears or becomes insolvent; or
- the builder is not an individual, such as a corporation, and the builder ceases to exist or becomes insolvent.

It depends on your needs, requirements, and budget. The limitations are determined by your company's management capabilities and financial resources.

### Loss or damage resulting from:

- non-completion of the work because of a relevant circumstance.
- loss of a deposit because of a relevant circumstance; or
- arising from the inability to take advantage of an entitlement to, or to enforce or recover under, a building remedy order for the work but only if you cannot recover compensation from the builder or have the builder rectify the loss or damage because of a relevant circumstance.

**The policy covers the owner for 6 years after practical completion**

**The payout for loss of deposits = \$40,000**

**The max payout for all other claims limit = \$200,000**

**Limits based on your company management and financial strength**
